DETAILED ACTION

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 19 is rejected under 35 U.S.C. 102(b) as being anticipated by Bednarek et al. (US 6120500). Bednarek et al. disclose an ablation catheter comprising a catheter shaft, the shaft comprising a proximal portion, a distal portion, the distal portion comprising an outer peripheral wall having an active region, wherein the distal portion has a cross-sectional configuration along the active region and the cross-sectional configuration is adapted to bias the active region against the tissue to be ablated.

Allowable Subject Matter

Claims 1, 5-9 and 11, 12, 14-18 are allowed.

Response to Arguments

Applicant's arguments filed 8/15/06 have been fully considered but they are not persuasive. Applicant argues that Bednarek does not disclose a cross-sectional configuration having an outer periphery that is adapted to bias the outer peripheral wall of the catheter against the tissue to be ablated. Figure 1 of Bednarek et al. clearly illustrates that the configuration of the catheter, which includes its cross section, is inherently adapted to bias the outer peripheral wall against the tissue to be ablated.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
